## MSV3 Mu/tistage Pumps

## - 304 Series Stainless Steel Components with Teflon ${ }^{\circledR}$ Wear Rings

- Cast Iron Base \& Adapter
- 1 NPT Cast Iron Flanges

## - NEMA 56C or 182/4 TC Dual Cycle 50/60 Hz, Single or Three Phase TEFC Motors

- EPDM/Tungsten Carbide Seal with Easy Replacement Feature

## - Optional ANSI/ASME 250\# Flange Kit

\author{

- Models Available inn 2 thru 25 Stages
}

Maximum Working Pressure 232 PSI [1600 kPa]

These AMT commercial/industrial centrifugal pumps are non-self-priming (gravity feed) units designed to handle high-pressure low flow liquid transfer applications where no suction lift is required. Typical installations include: hot and chilled water, boiler feed, condensate return, irrigation, high pressure washdown, booster service, and fire protection/sprinkler systems-often referred to as a Jockey Pump. These pumps have NOT been investigated for use in potable (drinking) water systems.

## AMI MSV3 Multistage Pumps

Pumps are interchangeable with Grundfos CR3 Series

+ MSV3-21/23/25: Available in 3 HP electric only. These use TC motors with approximate diameter of 8.8 [22.5] NOTE: Dimensions are in inches (centimeters) and have a tolerance of $\pm 1 / 8^{\prime \prime}$
** Dimension may vary due to motor manufacturer's specifications.
© When Ordering Add the Correct Suffix (-?P) to Model Number Indicating Phase (ex. MSV3-2-1P)

| SINGLE PHASE (-1P) VOLTAGES | 60HZ= 1 HP - 2 HP 115/208-230 VAC and 3 HP 208-230 VAC $50 \mathrm{HZ}=110 / 220$ VAC except 3 HP 220 VAC ONLY |
| :---: | :---: |
| THREE PHASE (-3P) VOLTAGES | $\begin{aligned} & 60 H Z=1 \mathrm{HP}-5 \mathrm{HP} 208-230 / 460 \text { VAC } \\ & 50 H Z=190 / 380 \mathrm{VAC} \end{aligned}$ |

NOTE: Electric supply for ALL motors must be within $\pm 10 \%$ of nameplate voltage rating (e.g. $230 \mathrm{~V} \pm 10 \%=207$ to 253.)
