

## Safety-Sever™ Break Aways

EBW™ brand Safety-Sever™ break aways prevent drive offs from becoming major disasters by uncoupling and instantly sealing both ends of the break. They prevent costly damage to dispensers, eliminate downtime and avert the major danger of runaway fuel spillage. A safety-sever coupler can be reconnected in minutes by simply replacing the metal tipped shear screw. The break away force provides ample protection for dispensers, while preventing accidental disconnection caused by ordinary aggressive hose handling.

### Highlights

- Easy break away field reconnection with replacement shear screw.
- Available in 3/4" NPT and BSPT and 1" NPT inlet options.
- 1" model provides greater flow rates ideal for truck stops and other high-capacity flow rate applications.

### Approvals

- cULus listed for use with gas 10% ethanol blend and diesel.

### Ordering Information

Model	Description
697-137-01	3/4" NPT Safety-Sever™ break away
698-133-21*	3/4" BSPT Safety-Sever™ break away
697-133-01	3/4" Safety-Sever™ break away replacement shear screw
797-225-01	1" NPT Safety-Sever™ break away
797-133-01	1" Safety-Sever™ break away replacement shear screw

\*Non-reconnectable.
