GoatThroat Pumps

Over 700 liquids handled by 4 pumps, offered to you by TOPS Equipment

Fits nearly any container from 2-gallon jugs to 55-gallon drums. Just pump a few strokes to pressurize, then dispense precisely controlled amounts with one touch of the tap -- as easily as opening and closing a faucet.

Over 750 Liquids | Up to 4.5 gpm | Remote Locations

2 Steps = 4.5 gallons per minute!

Step 1
Pressurize with just a few
strokes of the plunger

Step 2
Control the flow at the
tap, dispense liquids at
up to 4.5 gallons per
minute

Dispense liquids like no other pump can!

This maintenance-free, environmentally sound, chemical drum pump allows fast, safe transfer of more than 700 liquids and chemicals.

Fits nearly any container from 2-gallon jugs to 55-gallon drums. Just pump a few strokes to pressurize, then dispense precisely controlled amounts with one touch of the tap -- as easily as opening and closing a faucet.

Patented leak-proof design conserves inventory, keeps work areas clean and prevents potentially hazardous spills. And unlike expensive electrical pumps, GoatThroat pumps cost less, require no power, and create no potential sparking hazard.

Each kit contains

- 1 GoatThroat™ precision pump
- 3 drum seals (small, medium, large)
- 4 siphon tube segments
- 3 siphon tube connectors
- 1 foot piece
- 1 standoff kit

Optional accessories

Remote discharge nozzle
delivers fluids to point of use.

GT Multi-Pump System runs up to 10 pumps
from one air line with only 4 psi

Wide selection of flowmeters showing
cumulative volume, resettable volume.
