

## BULK FLUID DISPENSING PACKAGES

Complete bulk fluid dispensing packages with 140, 230 and 330 Gallon CUBET tanks. CUBET tanks are ULC listed and they are made from HD-8760 high density copolymer that offers the following advantages:

- Environmentally superior.
- Long term UV stabilization.
- 250 mil wall thickness.
- Level always visible, no gauge needed.
- No vent cap needed.
- Will not leak or rust, seamless construction.
- Space saving, conserves floor space.

CUBETS can accommodate oil, water based fluids and other chemicals. They are also available with a dual containment steel basket that holds 110% of the tank volume.
