

Burns Water | Kills Algae | Reverse Phase Separation Restores Fuel Quality and Performance

Diesel

Gasoline

Ethanol

Reverse-It Phase Separation
Treatment and Reversal

TOPS Fuel Treatments

Diesel, Gasoline, and Ethanol Fuel Treatments with powerful water encapsulation and combustibility additives. Available in 55 gallon, 5 gallon and 32 ounces.

55 gallon and 5 gallon sizes.

Ethanol Phase Separation Treatment.

See reverse for more details.

Burns Water | Kills Algae | Reverse Phase Separation Restores Fuel Quality and Performance

DIESEL TREATMENT

- Stops microbe and algae growth.
- Makes **water** combustible. Reduces engine failure.
- Adds 20-40% Lubricity to ULSD and off-road fuels.
- Bio-based formula improves mileage.
- Cleans engines and fuel systems.
- Boosts cetane 2 points.

AVAILABLE IN:

55 gallons | 5 gallons | 32 fl. oz.

TREATMENT RATIO:

Warm Weather

1 gallon per 1000 gallons of diesel fuel.

Cold Weather:

1 gallon per 500 gallons of diesel fuel.

1 gallon totally encapsulates 1 gallon of water.

GASOLINE TREATMENT

- Treats all water contamination problems.
- Makes **water** combustible.
- Prevents danger of phase separation in E-10 fuel.
- Bio-based formula improves mileage.
- Reduces fumes and emissions.
- Boosts octane 2 points
- Year round formula

AVAILABLE IN:

55 gallons | 5 gallons | 32 fl. oz.

TREATMENT RATIO:

1 gallon per 300 gallons of fuel.

1 gallon totally encapsulates 1 gallon of water.

REVERSE-IT ETHANOL PST TREATMENT

- Reverses phase separation in ethanol blends.
- Makes **water** combustible.
- Treats all water contamination problems.
- Bio-based formula reduces emissions.
- Treat fuel instead of disposing of hazardous waste.

AVAILABLE IN:

55 gallons | 5 gallons | 32 fl. oz.

TREATMENT RATIO:

1 gallon per 90 gallons of ethanol blended fuel.

55 gallon per 5000 gallons of ethanol blended fuel.

1 gallon totally encapsulates 1 gallon of water.
