

# FUEL-VAULT®

## HORIZONTAL DOUBLE WALL AST

ULC S601 – 1,300 L to 4,500 L Single and Multi-Compartment Tanks

Fuel-Vault® is the easiest and environmentally safest way to store flammable or combustible liquids.

Easy to use and install, Fuel-Vault's double wall storage system provides superior protection against costly and environmentally damaging leaks or ruptures. Best of all it is manufactured by Westeel to meet or exceed all national environmental and hazardous liquids regulations as well as provide years of worry free service.

### IMPORTANT FEATURES

- Durable all steel construction in a horizontal design
- Consists of a heavy gauge tank shell
- All exterior surfaces prepared with a chemical wash and finished with a rugged and durable weather-resistant powder coat white
- Heavy duty lifting lugs for easy installation and tank placement
- 100% secondary integral containment with an easily accessible inspection port to identify any problems with the primary tank

### ACCORDANCE COMPLIANCE

- CAN/ULC-S601-07
- Alberta Energy Regulator Directive 55 Compliant
- Environmental Farm Plan Compliant
- National/Provincial Fire Code Compliant

### OPTIONAL EQUIPMENT

- Fluid transfer, metering equipment and filters
- Locking vent caps, spill boxes, fill limiters, nozzles, bulk hose and high hose retrievers
- Primary and secondary tank gauges
- Integrated step package
- Skid base

### TYPICAL APPLICATIONS

- Petroleum refueling facilities – fleet, agricultural, industrial, oil and gas, forestry, mining, marine, recreational, rental
- Petroleum processing – oil and gas chemicals, enhancers, additives

### OPTIONAL PACKAGE FEATURES

01. Fuel-Vault Model HFV-4500
02. Skid (heavy duty model shown)
03. 1" Auto Nozzle
04. Nozzle Holder
05. Nameplate ULC S601 Integral Contained
06. Meter Mechanical - Litres
07. Filter 30 Micron
08. Vane Pump - 115V AC
09. Hose Retractor with Mast
10. 20' Arctic Hose
11. Fill - 2.5" comes with vented cap
12. Spare / level gauge - 2" (level gauge shown - shipped loose)
13. Normal vent - 2" (pipe / vent shipped loose)
14. Containment inspection - 2"
15. Gauge stick 6'3" (not shown - shipped loose)

Note: Lift lugs are not to be used to move tank while containing product. Tank must not be elevated >300mm as per Fire Code requirements.
