

Model 323 & 323C Series

SPECIFICATION SHEET

Application

The 323 series adaptors are designed for installation on aboveground and underground storage tanks to mate with vapor recovery couplers and elbows. This connection allows the fuel vapors to be returned to the tank truck during the fuel delivery operation.

323SA...has a built in swivel.

323B...is equipped to accept brake interlock devices which lock the transport brakes while connected.

323C...provide a lockable vapor tight cover which protects the adaptor from dirt and debris.
