WARRANTY

Limited Warranty Statement

Clay & Bailey Manufacturing Company, the Seller, warrants, to the original purchaser only, that all fittings manufactured by it shall be free from defects in material and workmanship for a period of one year only from the date of delivery to the original Purchaser. Should any such defects arise during the one year warranty period, the fitting will be replaced or repaired without charge.

The warranty obligations of Seller shall be limited to repair or replacement of the fitting and it shall not be liable or responsible under any circumstances or in any amount for consequential or incidental damages or for injury or damages to persons or property using or used in connection with the fitting or for loss of profits or other costs or expenses of any kind or character. There are no warranties or representations by Seller other than as set forth herein, either express or implied, and no person, firm or corporation is authorized to make any representation or incur any obligation in the name or on behalf of Seller except as stated herein.

This warranty applies only during normal use and care and is absolutely void if the fitting is misused, neglected or damaged after delivery to Buyer, or if it is improperly assembled or erected, or if it has been disassembled, repaired or altered by someone other than the Seller.

This warranty gives you specific legal rights, and you may also have other rights which vary from state to state. Any action on this warranty must be commenced within two years from the date of delivery of the fitting or such action shall be barred.

THE FOREGOING WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO WARRANTIES OF FITNESS OR MERCHANTABILITY.

Care should be exercised in the handling and installation of all fittings. A small particle of dust or dirt can cause a valve to leak.

Do not return material without our written permission. Return transportation charges must be prepaid and returns are subject to a 25% handling charge to the customer.
